

Dear Year 11 students,

As your time at secondary school ends, you will no doubt be looking forward to the summer months to enjoy the well-deserved break to ready yourself for your next adventure Post-16!

For some of you this long break from studying might seem like a daunting prospect, therefore, to help with the transition to sixth form we have put together a pre-IB transition pack to keep you engaged and motivated with your studies. The work provided will help to develop some of the skills you will need to be successful whether studying the IB Diploma or Career-Related Programme (or A Levels).

You can access work for all the different IB subjects and core aspects here, via DropBox:

<https://tinyurl.com/IICPre-IB>

IB Learners are independent, intellectual risk-takers and balanced in their approach – so by all means go beyond, start your own research and dip into and out of the subject areas we have provided. Whether you are planning to do an IB programme with us or just looking for a challenge during the summer months you should find something interesting.

We hope you will engage with and enjoy the pre-IB transition pack and keep your minds sharp - you will need to be ready for September!

Kind regards

Christine Martin

Director of Student Progress: IIC
