

Imagine, Believe, Achieve

7th June 2019

Dear Parent/Carer

The final half term is upon us, but the College shows no sign at all of slowing down towards the summer break. The exams are coming towards their conclusion for Year 11; however, that then shifts the focus to our remaining students, and their end of year assessments.

A few weeks ago, we gave parents and carers the heads up about our proposed activities week. Due to the logistics involved and our wish to keep costs as low as possible, we will now be having activities on Monday the 8th to Wednesday the 10th of July. Details on the activities will be sent to you on Monday.

We have completed our detailed calendar for next year. As part of our long term planning, we are going to release our five-year plan for residential trips for all year groups. The aim is to allow parents and students to identify the opportunities they may wish to take up and plan accordingly. This does not include the usual raft of day visits which will be communicated in September and throughout the year. Encouraging aspiration in our students is a key focus for the College, and trips and residential are an important part in this process. We do not want any students to miss these opportunities due to funds or a lack of passport etc. Please talk to us direct if you need support with accessing these opportunities.

The College continues to receive fantastic support from local and national businesses and other organisations. The managing director of AMEY PLC awarded certificates to a selection of Year 8 students who had completed their recycle and reuse project. Their redesigns of previously disposed of furniture were exceptional. The items themselves will soon be on sale to raise money for a charity of their choice. Information on how you can bid will be sent out soon.

The Royal Papworth Hospital kindly donated a significant amount of furniture and other resources to the College. A number of van loads later, we have been extremely lucky to replace a lot of our worn out and tired furniture throughout the College. I want to thank them personally for this hugely generous gesture.

On Wednesday the 13th of June, at 7pm, the Morris Education Trust has extended an invitation to all parents to meet the Trustees. This is an opportunity to discuss the future direction and plans for the Trust in the future. This event will take place in the Learning Resource Centre.

Yours faithfully

Daniel Baxby
Principal
